

2018 ATO Rifle Build Price Sheet

Advanced Tactical Ordnance will gladly build your next custom rifle. The items and prices shown here are just a suggestion of where to start on your rifle build. First, you pick the barreled action that fits your needs. Next, tell us which stock or chassis system that you love. If you need a different action, barrel, trigger, or stock than what we have listed, then let us know. We will get you the best price we can on the premium components you need for your next gun build. We can also help you pick out an optic.
